INTRODUCTION

The simple answer is TRX Lounge is where blockchain projects come to receive services geared toward elevating awareness of the project's existence and benefits to the blockchain community. More specifically, TRX Lounge aims to aid project owners in introducing and marketing their respective tokens in the blockchain, helping bring cognizance needed to drive later stages of project development and implementation forward.

Often, projects can stall in the planning stages as owners come face to face with the demands of creating a blockchain endeavor. The reasons vary but can run anywhere from lack of knowledge to financial issues; any of which result in making moving forward with the nascent project appear insurmountable. TRX Lounge makes marketing resources available for projects needing financial aid, a expansive knowledge base or simply the ability to reach more potential customers than could otherwise be encompassed alone.

TRX Lounge aims to make it easier for people all over the world to have access to free Tron coins; In particular those who otherwise would have limited or no access. Our ultimate goal for the app is to make marketing and advertising less daunting while also making it fun and educational for community members.

TRX Lounge App Vision

TRX Lounge App will be a Tron Community where you can socialize and drop Tron coins for friends , business or fun. This community will be geared towards marketing projects on the Tron Blockchain. TRX Lounge will be “The Future of Blockchain Marketing today”. The TRX Lounge App will not only have socializing attraction, it will also enable us to send Marketing Information, airdrops, and advertisements to the entire community simultaneously simply with a click of a button. We will have the community vote for the new projects they want to learn more about. Our TRX Lounge community will also help spread Tron to people all over the world by giving out free coins to the community and allowing people who would not normally be able to have access to receive free information and Tron coins. The TRX Lounge App will also allow basic online video courses for people who would like to learn more about understanding the decentralizing of Tron Blockchain and Cryptocurrency. Where they receive TRXLounge (DTL), TRXLSilver (DTLS) or select Tron coin rewards by logging in taking tests, watching videos and increasing in levels of completion.
